

report of visit to the (i)OTA

October 17 – 20, 2018 • Kissimmee (Orlando), F

2018 Annual Meeting

Guy Putzeys

Bota board and AO belux member

Reason of visit

- Last visit to an OTA annuam meeting dates from 2014 together with colleague Wim Vandesande where we met our common godfather Roy Sanders, a relationship dating back from our AO fellowship in 2000/2001
- New visit planned due to the unexpected acceptance of the abstract of our **Cap Technique** in the Hemi-Arthroplasty treatment of 4-Part Proximal Humeral Fractures, which was submitted by resident Sigurd Uyttebroek and accepted as a free paper at **the international trauma care forum , which precedes the OTA congres.**
Due to calendar issues I could only attend the first two days
