

Posterlist and ePoster presentations

Poster Number	Title	Presenter	Poster Group	Presentation date	Session	Display
P001	Comparative effective of dexamethasone on intracochlear inflammation and residual hearing after cochleostomy : an animal model	Park Yong-Ho, South Korea	I	28-Jun	1	Display 1
P002	Changes of cochlear glucocorticoid receptor and serum corticosterone in noise induced hearing loss animal model: A comparison of administration time of dexamethasone	Park Hee-Sung, South Korea	I	28-Jun	1	Display 1
P003	Clinically applicable neurotrophic treatment of the auditory nerve in deafened guinea pigs	Versnel Huib, The Netherlands	I	28-Jun	1	Display 1
P005	The change of P1 amplitude in streptozotocin-induced diabetes rat model after noise expose	Lee Chi-Kyou, South Korea	I	28-Jun	1	Display 1
P006	Auditory and visual motion adaptation in congenitally deaf cochlear implant users: Evidence for typical crossmodal aftereffects	Fengler Ineke, Germany	II	29-Jun	5	Display 1
P007	Effectiveness of umbilical cord derived mesenchymal stem cell transplantation in cochlear implantation	Ahn Joong Ho, South Korea	II	29-Jun	5	Display 1
P008	Spectral complexity reduction of music signals for cochlear implant users - A validation with an interactive user interface	Gauer Johannes, Germany	II	29-Jun	5	Display 1
P009	Middle and inner ear functional state before after cochlear implantation	Machalov Anton, Russia	II	29-Jun	5	Display 1
P010	Comparison of acoustical and electrical perception of musical consonance in single-sided CI users	Böckmann-Barthel Martin, Germany	II	29-Jun	5	Display 1
P011	Three dimensional analysis of Turkish ling sounds	Kemaloğlu Yusuf Kemal, Turkey	III	28-Jun	4	Display 1
P012	Loudness function for bone conducted sound in subjects with pure conductive hearing loss	Eng Mona, Sweden	III	28-Jun	4	Display 1
P013	Audiometric gain in patients using cochlear implant after speech processor upgrade	Iha Luiz Cesar Nakao, Brazil	III	28-Jun	4	Display 1
P014	Acceptable noise levels in cochlear implants and bimodal hearing users	Sadeghi Reza, Iran	III	28-Jun	4	Display 1
P015	Auditory brainstem implant in children	Diamante Gabriela, Argentina	III	28-Jun	4	Display 1
P016	Comparison of high resolution inner ear microanatomy with SLOT, OCT, μ CT scans	Mohebbi Saleh, Iran	IV	29-Jun	8	Display 1
P017	Long term in vivo release profile of electrode carrier dummies loaded with dexamethasone implanted into the scala tympani of guinea pigs	Liebau Arne, Germany	IV	29-Jun	8	Display 1
P018	Discovery of biomarker for age-related hearing loss	Chung Juyong, South Korea	IV	29-Jun	8	Display 1
P019	Effect of sleep deprivation on hearing levels in rats	Kim Bo Gyung, South Korea	IV	29-Jun	8	Display 1
P020	In vivo assay of the potential Gadolinium-induced toxicity for sensory hair cells using zebrafish animal model	Choi June, South Korea	IV	29-Jun	8	Display 1
P021	Universal newborn hearing screening in Algeria	Boudjenah Farid, Algeria	V	28-Jun	4	Display 3
P022	Early complex diagnostics of hearing impairment in children	Ivoylov Alexey, Russia	V	28-Jun	4	Display 3

P023	Hearing screening in newborns at risk : which factors to recommended ?	Mehtari-Chabane Sari Nasrine Siham, Algeria	V	28-Jun	4	Display 3
P024	The newborn hearing screening program: achievements and challenges	Palma Silvia, Italy	V	28-Jun	4	Display 3
P025	Clinical evaluation of four patients with incomplete partition type III	Chen Ying, China	V	28-Jun	4	Display 3
P026	Genetic predisposition of adult-onset and down-sloping sensorineural hearing loss	Jung Jinsei, South Korea	VI	29-Jun	8	Display 4
P027	Cochlear implantation in patients suffering from Neurofibromatosis type 2	Lukaszewicz Zuzanna, Poland	VI	29-Jun	8	Display 4
P028	Hearing results in idiopathic sudden sensorineural hearing loss patients with combined intratympanic and systemic steroid therapy	Lee Ju Hyoung, South Korea	VI	29-Jun	8	Display 4
P029	Osteogenesis imperfecta – analysis of the phenotypes and intraoperative changes observed during surgical procedures among patients treated at the Institute of Physiology and Pathology of Hearing	Osińska Kamila, Poland	VI	29-Jun	8	Display 4
P030	Clinical and temporal characteristics of cochlear implant surgeries performed at a tertiary care center	Zanoni Alessandra, Brazil	VI	29-Jun	8	Display 4
P031	Cochlear implant in children with congenital hearing loss: time elapsed between the suspicion and the diagnosis of hearing loss and the performance of the surgery in a public service of high complexity in Brazil	Domenico-Ventre Marcia , Brazil	VII	28-Jun	4	Display 4
P032	Non-syndromic neurosensorial hearing loss:auditory performance and treatment in patients with mutations in Connexin 26 and 30	Prieto María Eugenia, Argentina	VII	28-Jun	4	Display 4
P033	Treatment of deafness using cochlear implant in patient with extremely rare genetic syndrome: branchio-oculo-facial	Porowski Marek, Poland	VII	28-Jun	4	Display 4
P034	Congenital sensorineural hearing loss with anomalous vestibular nerve complex: rare radiological findings	Abdullah Asma, Malaysia	VII	28-Jun	4	Display 4
P035	Auditory evaluation in children and adolescents with Turner syndrome	Oliveira Adriana, Brazil	VII	28-Jun	4	Display 4
P036	Impact of GJB2 gene on progression of hearing loss in patients with semicircular canal dehiscence (SCCD)	Lesinski-Schiedat Anke, Germany	VIII	28-Jun	2	Display 2
P037	Study of Japanese children unable to achieve open-set speech recognition three years after cochlear implantation	Shirai Kyoko, Japan	VIII	28-Jun	2	Display 2
P038	Integration rate into regular schools of children with cochlear implants in 2016. Discussion of favorable factors affecting successful integration based consideration from over 150 school visit experiences of children with cochlear implants	Kanda Yukihiko, Japan	VIII	28-Jun	2	Display 2
P039	Early cochlear implanted children benefit from bimodal provision	Glaubitz Cynthia, Germany	VIII	28-Jun	2	Display 2
P040	Cochlear implantation in children with auditory neuropathy: lessons from Brown Vialto Van Laere Syndrome	Verma Rohit, United Kingdom	VIII	28-Jun	2	Display 2
P041	The impact of electrode type on intra-operative and postoperative telemetry measures in cochlear implant using different surgical techniques	Ismail Amr, Egypt	VIII	28-Jun	2	Display 2
P042	Outcomes of cochlear implantation in children with the narrow bony cochlear nerve canal	Kim Yonghan, South Korea	VIII	28-Jun	2	Display 2
P043	Effects of long term use of cochlear implant on e-Evoked Action potential	Azadeh Ranjbar Leila, Iran	VIII	28-Jun	2	Display 2
P044	Delayed sequential bilateral cochlear implant	Breuning Silvia, Argentina	IX	29-Jun	6	Display 2
P045	Performance of the second ear in sequential cochlear implantation	Kashio Akinori, Japan	IX	29-Jun	6	Display 2

P046	MCLs in children after sequential bilateral CI implantation	Wisniewski Tomasz, Poland	IX	29-Jun	6	Display 2
P047	The effect for children of bilateral cochlear implants with long interval between first and second surgery	Dairoku Teppei, Japan	IX	29-Jun	6	Display 2
P048	New approach in programming sequentially implanted children: effects of inter implant dynamic range differences on functional outcomes	Kosgallana Piumi, Ireland	IX	29-Jun	6	Display 2
P049	Auditory speech perception and oral language in children with unilateral and simultaneous bilateral cochlear implant in the first year of use	Fiuza Regaçone Simone, Brazil	IX	29-Jun	6	Display 2
P050	A multicentre review of electric-acoustic stimulation in children	Ambler Murette, United Kingdom	IX	29-Jun	6	Display 2
P051	Outcomes in a child with bilateral inner ear malformations managed by custom-made electrode arrays	Hanvey Kate, United Kingdom	X	28-Jun	3	Display 2
P052	Recurrent bacterial meningitis after cochlear implantation: a case report	Djilali Aiad Khaled, Algeria	X	28-Jun	3	Display 2
P053	Outcome of cochlear implantation in children with Enlarged Vestibular Aqueduct (EVA) and Mondini Dysplasia(incomplete partition type II)	Sefein Ihab, Egypt	X	28-Jun	3	Display 2
P054	Audiological results, complications and experience of cochlear implant surgery in patients with congenital malformation of the internal ear type incomplete partition type III	Jimenez Conrado Andres, Colombia	X	28-Jun	3	Display 2
P055	Surgical issues of cochlear implantation in incomplete partition type I	Eftekharian Ali, Iran	X	28-Jun	3	Display 2
P056	Cochlear implantation for unilateral profound hearing loss in children after meningitis	Schramm David, Canada	X	28-Jun	3	Display 2
P057	Investigating the impacts of cochlear implantation on the happiness and self-esteem of mothers of children with severe hearing loss	Saki Nader, Iran	X	28-Jun	3	Display 2
P058	Scala vestibular insertion of cochlear implant for labyrinthitis ossificans limited to scala tympani of basal turn of cochlea- Our experience	John Mary, India	XI	29-Jun	7	Display 1
P059	The efficiency of subperiosteal suture fixation technique for cochlear implantation in young children	Jung Eun Kyung, South Korea	XI	29-Jun	7	Display 1
P060	Cochlear implantation in 3 Patients with CHARGE syndrome	Teraoka Masato, Japan	XI	29-Jun	7	Display 1
P061	Advantages of the use the endoscopy in cochlear implant	Toro Auspont Cesar, Chile	XI	29-Jun	7	Display 1
P062	The effects of cochlear implantation on vestibular function in 1-4 years old children	Ajalloueyan Mohammad, Iran	XI	29-Jun	7	Display 1
P063	Characteristics and pathogenesis of facial nerve stimulation after cochlear implant surgeries	Lee Jee Yeon, South Korea	XI	29-Jun	7	Display 1
P064	Impact of socioeconomic status on the occurrence of complications after cochlear implantation - A case study	Dokoska Marija, Macedonia	XI	29-Jun	7	Display 1
P065	Complications of cochlear implantation: a series of 300 patients and review of the literature	Brahmi Isma, Algeria	XII	29-Jun	7	Display 2
P066	Surgical complications and morbidity in cochlear implantation	Mostafa Ahmed, Egypt	XII	29-Jun	7	Display 2
P067	Contalateral side effects in auditory brainstem implantation: a case report	Batuk Merve, Turkey	XII	29-Jun	7	Display 2
P068	Cocheat implant complications: electrode extrusion management	Alzahrani Musaed, Saudi Arabia	XII	29-Jun	7	Display 2
P069	Analysis of causes for cochlear implant explantations	Gawęcki Wojciech, Poland	XII	29-Jun	7	Display 2
P071	Managing extreme anxiety during cochlear implant assessment: a team approach	Hanvey Kate, United Kingdom	XII	29-Jun	7	Display 2

P072	Difficulties in cochlear implantation in children with Di George syndrome	Porowski Marek, Poland	XII	29-Jun	7	Display 2
P073	Cholesteatoma , a rare complication of the cochlear implantation : about an observation and review of the literature	Brahami Isma, Algeria	XIII	28-Jun	1	Display 2
P074	Post meningitis hearing threshold improvement and cochlear implantation: a case report	Orzan Eva, Italy	XIII	28-Jun	1	Display 2
P075	Cochlear implant in Patau syndrome: a rare case report	Celik Turgut, Turkey	XIII	28-Jun	1	Display 2
P076	The value of preoperative high-resolution computed tomography in predicting round window niche visibility in cochlear implant surgery in children under 12 months old	Chen Jianqing, China	XIII	28-Jun	1	Display 2
P077	Polish universal neonatal hearing screening program and its influence on early cochlear implantation in Poznań, Poland	Balcerowiak Andrzej, Poland	XIII	28-Jun	1	Display 2
P078	Does auditory frequency-to-place mismatch limit the ability to use spectral detail?	Almuways Hala, Saudi Arabia	XIII	28-Jun	1	Display 2
P079	Pitfalls in revision cochlear implant surgery and their management - a case based approach	Gadre Arun, United States	XIV	28-Jun	2	Display 3
P080	Audiological results and quality of life in elderly cochlear implant users	Cansler Alicia, Argentina	XIV	28-Jun	2	Display 3
P081	Speech perception in cochlear implant users with post meningitis deafness	Dezani Soares Alexandra, Brazil	XIV	28-Jun	2	Display 3
P082	Correlation between speech perception, age and sound deprivation time in post-lingual cochlear implant users	Dezani Soares Alexandra, Brazil	XIV	28-Jun	2	Display 3
P083	Molecular etiology of deafness and cochlear implantation performances in the postlingually deafened cochlear implantees	Park Hey-Rim, South Korea	XIV	28-Jun	2	Display 3
P084	Prediction of outcomes based on preoperative assessment in CI patients	Riemenschnitter Cosima, Switzerland	XIV	28-Jun	2	Display 3
P085	Impact of duration of deafness and age at implantation on the development of speech discrimination with cochlear implant	Käcker Christoph, Germany	XIV	28-Jun	2	Display 3
P086	Results in pre-and post surgical hearing tests in patients over 65 years old with diagnosis of unilateral neurosensorial hypoacusia handled with cochlear implant at San Rafael Clinical University Hospital during the period 2006 - 2016	Jimenez Montealegre Conrado Andres, Colombia	XV	28-Jun	3	Display 3
P087	The quality of hearing after cochlear implantation – evaluation of adult patients from years 2012-2017	Durko Marcin, Poland	XV	28-Jun	3	Display 3
P088	Outcomes of cochlear implantation in post-lingually deaf patients: a report from Baqiyatallah hospital	Saeedi Masoumeh, Iran	XV	28-Jun	3	Display 3
P089	Electrocochleography recorded via the Advanced Bionics cochlear implant system	Boyle Patrick, United Kingdom	XV	28-Jun	3	Display 3
P091	Cochlear implant in ear with profound congenital hearing loss in patient with post lingual asymmetric hearing loss. Our experience.	Aranis Carolina, Chile	XV	28-Jun	3	Display 3
P092	Hearing preservation in patients after CI532 implantation - First results	Arweiler-Harbeck Diana, Germany	XV	28-Jun	3	Display 3
P093	Cochlear implant in patients after meningitis	Iha Luiz Cesar Nakao, Brazil	XV	28-Jun	3	Display 3
P094	Cochlear implantation in Refsum disease with facial nerve enlargement	Horoi Mihaela, Belgium	XVI	29-Jun	6	Display 3
P095	Interaction of tinnitus suppression and hearing ability after cochlear implantation	Li Jia Nan, China	XVI	29-Jun	6	Display 3
P096	The feasibility of endoscope-assisted approach for cochlear implant: a pilot study	Lee Dong-Hee, South Korea	XVI	29-Jun	6	Display 3

P097	The effect of post-insertional cochlear implant movements in hearing preservation; are we negating our atraumatic insertion	Crohan William, Australia	XVI	29-Jun	6	Display 3
P098	Cochlear implantation under local anaesthetic – “How we do it”	Mistry Sandeep, United Kingdom	XVI	29-Jun	6	Display 3
P099	Influence of “hook” region anatomy on the approach to the spiral canal	Lilenko Andrey, Russia	XVI	29-Jun	6	Display 3
P100	Round window niche area anatomy in terms of cochlear implantation	Lilenko Andrey, Russia	XVI	29-Jun	6	Display 3
P101	Cochlear Implant in cochlear hypoplasia	Amaral Maria Stella Arantes do , Brazil	XVII	29-Jun	7	Display 3
P102	The triphasic pulses in CI fitting for patients with facial nerve stimulation: a case study	Gaufman Vladimir, Russia	XVII	29-Jun	7	Display 3
P103	Intracranial hemorrhage after venous sinus thrombosis in cochlear implantation: a case report	Stanek Barbara, Austria	XVII	29-Jun	7	Display 3
P104	The CT prevalence of cochlear-facial dehiscence: implication for cochlear implantation	Seo Jae-Hyun, South Korea	XVII	29-Jun	7	Display 3
P105	Facial nerve stimulation in narrow bony cochlear nerve canal after cochlear implantation	Chan Ray Yoon, South Korea	XVII	29-Jun	7	Display 3
P106	Cochlear implantation in otosclerosis: usefulness of intraoperative NRT and EABR monitoring for programming to prevent facial nerve stimulation	Nishimura Koji, Japan	XVII	29-Jun	7	Display 3
P107	Benign paroxysmal positional vertigo secondary to cochlear implantation - how is different?	Radulescu Luminita, Romania	XVII	29-Jun	7	Display 3
P108	Causes of surgical reintervention in cochlear implants	Dezani Soares Alexandra, Brazil	XVIII	28-Jun	4	Display 2
P109	Wireless connectivity in cochlear implant users in challenging auditory situations	Hoshino Ana Cristina, Brazil	XVIII	28-Jun	4	Display 2
P110	The relation between cochlear implants performance and scala position of electrodes array	Tan Haoyue, China	XVIII	28-Jun	4	Display 2
P111	Prospective study of sound localization in cochlear implantees – Measured with a modified clinical diagnostic setup using virtual sound sources (ERKI-Method)	Schmidt Katharina, Germany	XVIII	28-Jun	4	Display 2
P112	Cochlear implant for adults with sporadic vestibular schwannoma in the only-hearing ear: ipsilateral, contralateral or bilateral?	Zhang Zhihua, China	XVIII	28-Jun	4	Display 2
P113	Analysis of the clinical effect of Listent cochlear implantation Made in China	Li Yun, China	XIX	29-Jun	8	Display 2
P114	Objective assessment of vestibular function of cochlear implanted ears versus nonimplanted deaf ears	Cozma Sebastian, Romania	XIX	29-Jun	8	Display 2
P115	Vestibular evaluation in cochlear implant	Gatti Omar, Italy	XIX	29-Jun	8	Display 2
P117	Speech discrimination and aided threshold outcomes for Carina patients, following re- programming with the new Carina fitting software 4.0.1.	Humphries Jane, United Kingdom	XX	28-Jun	1	Display 3
P118	Carina@: the before and after of a fully implantable hearing device	Almario Jorge, Colombia	XX	28-Jun	1	Display 3
P119	Outcome of Vibrant Soundbridge implantation in young adults with sensorineural hearing loss: a case series	Oh Jeong-Hoon, South Korea	XX	28-Jun	1	Display 3
P120	Audiological benefit and subjective satisfaction with ADHEAR hearing system in adults with conductive hearing loss	Bukurov Bojana, Serbia	XX	28-Jun	1	Display 3
P121	Simulated conductive hearing loss for testing a new bone conduction hearing aid	Herisanu Ioana, Germany	XX	28-Jun	1	Display 3

P122	Treatment of malformations of the external and middle ear in children	Silva Maria Angela, Argentina	XX	28-Jun	1	Display 3
P123	Application of the Bonebridge implant with simultaneous reconstruction of the posterior wall of the external auditory canal with autogenous material	Ratuszniak Anna, Poland	XXI	29-Jun	5	Display 2
P124	A surgical technique using landmarks of the temporal bone for Bonebridge implantation	Cho Sung Il, South Korea	XXI	29-Jun	5	Display 2
P125	Feasibility of transmastoid implantation of the Bonebridge® according to different underlying pathologies in the adult temporal bone	Thomas Jan Peter, Germany	XXI	29-Jun	5	Display 2
P126	A 29-year-old female with Neurofibromatosis type II who underwent auditory brainstem implantation	An Yun Suk, South Korea	XXI	29-Jun	5	Display 2
P127	Clinical experiences and outcomes in children with the Med-El Bonebridge	Brewster Lynne, Canada	XXI	29-Jun	5	Display 2
P128	Application of Bonebridge bone conduction implant in difficult anatomical conditions	Osińska Kamila, Poland	XXI	29-Jun	5	Display 2
P129	Cochlear Implantation in a children with autism spectrum disorder	Suwa Keiko, Japan	XXII	28-Jun	2	Display 4
P130	Cochlear implantation for children with autism spectrum disorder	Suwa Keiko, Japan	XXII	28-Jun	2	Display 4
P131	Is there any relationship between language intervention mode and the cochlear implanted children's performance in achieving receptive and expressive communication skills??	Monshizadeh Leila, Iran	XXII	28-Jun	2	Display 4
P132	Reading achievement skills in Japanese pediatric cochlear implant users	Akamatsu Yusuke, Japan	XXII	28-Jun	2	Display 4
P133	Analysis of Japanese monosyllable speech perception in cochlear implant users	Ogata Erika, Japan	XXII	28-Jun	2	Display 4
P134	The comparative study if phonological awareness in normal and cochlear implant children in monolingual and bilingual family	Esmaeili Fatemeh, Iran	XXII	28-Jun	2	Display 4
P135	Determination of the source of sound in patients after cochlear implantation	Kliachko Dmitrii, Russia	XXII	28-Jun	2	Display 4
P136	A cochlear implanted teenage girl with hydrocephalus	Gündüz Bulent, Turkey	XXIII	28-Jun	3	Display 4
P137	Music therapy and auditory habilitation for a deaf child having very severe inner ear anomaly using cochlear implant	Kanda Yukihiro, Japan	XXIII	28-Jun	3	Display 4
P138	Bimodal hearing for cochlear implant recipients: capturing experiences	Zoolfqr Sadia, United Kingdom	XXIII	28-Jun	3	Display 4
P139	Programming of the speech processor for patients with deafness after meningitis	Zaitsev Andrii, Ukraine	XXIII	28-Jun	3	Display 4
P140	Satisfaction and quality of life in young Romanian cochlear implant users	Popescu Rodica, Romania	XXIII	28-Jun	3	Display 4
P141	Using the little ears auditory questionnaire to promote parental confidence in the assessment process: capturing experiences	Hanvey Kate, United Kingdom	XXIII	28-Jun	3	Display 4
P142	Comparison of auditory and speech performance of hearing impaired children after cochlear implant	Ghazvini Atieh, Iran	XXIII	28-Jun	3	Display 4
P143	The effect of rehabilitation before cochlear implant on auditory and speech performance of children after cochlear implant	Ghazvini Atieh, Iran	XXIV	29-Jun	7	Display 4
P144	Efficacy of parent-child interaction therapy on anxiety symptoms in cochlear implanted deaf children	Javadi Navideh, Iran	XXIV	29-Jun	7	Display 4
P145	Vestibular disorders in children with chronic suppurative otitis media	Ivoylov Alexey, Russia	XXIV	29-Jun	7	Display 4
P146	On-line service to support patients after cochlear implantation	Pudov Nikolai, Russia	XXIV	29-Jun	7	Display 4

P147	Pre-school musical training in congenital hearing loss: cognitive and motor benefits	Orzan Eva, Italy	XXIV	29-Jun	7	Display 4
P148	Rehabilitation of patients with Mondini malformation and auditory neuropathy after cochlear implantation	Levina Elena, Russia	XXIV	29-Jun	7	Display 4
P150	Benefits of a new fitting formula for patients using bimodal stimulation	Rossi Natalia, Argentina	XXV	29-Jun	6	Display 4
P151	Binaural hearing rehabilitation in patients with postlingual asymmetric hearing loss	Shcherbakova Yana, Russia	XXV	29-Jun	6	Display 4
P152	What did adult advanced bionics Q90 cochlear implant recipients think about the Phonak Naida link hearing aid? Results from a sound quality ratings questionnaire.	Muff Joanne, United Kingdom	XXV	29-Jun	6	Display 4
P153	Fitting cochlear implant processors in adults with preserved hearing – Development of a protocol	Humphries Jane, United Kingdom	XXV	29-Jun	6	Display 4
P154	Experiences in cochlear implant fitting – AutoART and applications	Dimák Balázs, Hungary	XXV	29-Jun	6	Display 4
P155	Impact of hearing rehabilitation on cognitive functions	Völter Christiane, Germany	XXV	29-Jun	6	Display 4
P156	Cochlear implantation in the octogenarian: speech perception outcomes and length of use	Panova Tsvetemira, United Kingdom	XXV	29-Jun	6	Display 4
P157	The quality of life in postlingual patients with asymmetric hearing loss before and after cochlear implantation	Shcherbakova Yana, Russia	XXVI	28-Jun	3	Display 1
P158	Efficacy of speech in Noise using Naida Q90 CI, benefit of speech perception in Noise with the latest noise reduction algorithm	Hazama Michio, Japan	XXVI	28-Jun	3	Display 1
P159	Accessibility for cochlear implanted patients: how to improve their life?	Frbezar Emilie, France	XXVI	28-Jun	3	Display 1
P160	Changes in quality of life in cochlear implant users	Diamante Leticia, Argentina	XXVI	28-Jun	3	Display 1
P161	Towards an international consensus on core outcome measures for clinical trials in adult single sided deafness	Katiri Roulla, United Kingdom	XXVI	28-Jun	3	Display 1
P162	Development of auditory verbal skills and maximizing outcome in adult cochlear implant users - A current adult rehabilitation project at the cochlear implant center in Eastern Denmark	Sandvej Grønberg Mathilde, Denmark	XXVI	28-Jun	3	Display 1
P163	Heterogeneity in reported outcome measures after surgery in superior canal dehiscence syndrome – A systematic literature review	van de Berg Raymond, The Netherlands	XXVI	28-Jun	3	Display 1
P164	Rehabilitation of telephone communication in cochlear-implanted adults	De Bergh Marion, France	XXVII	29-Jun	5	Display 3
P165	Are the BKB scores different when tested with male and female voices: results from adult cochlear implant candidates	Muff Joanne, United Kingdom	XXVII	29-Jun	5	Display 3
P166	Datalogging and subjective evaluation of listening situations of cochlear implant (CI)-patients	Fritz Angelina, Germany	XXVII	29-Jun	5	Display 3
P167	Case study: follow-up of a candidate cochlear implant patient with a hearing aid	ikiz Merve, Turkey	XXVII	29-Jun	5	Display 3
P168	Effect of hearing loss and age: speech in noise and cognitive skills	Parlak Kocabay Aysun, Turkey	XXVII	29-Jun	5	Display 3
P169	Limitation of high pitch sound perception in nontumor patients with auditory brainstem implantation	Choi Hyun Seung, South Korea	XXVII	29-Jun	5	Display 3
P170	The clinical significance of 3D-FLAIR MR images obtained 4 hours after Gadolinium injection in the sudden sensorineural hearing loss	Chung Jae Ho, South Korea	XXVIII	28-Jun	2	Display 1
P171	Speech-auditory brainstem responses in cochlear implant recipients: neural response or artefact?	BinKhamis Ghada, United Kingdom	XXVIII	28-Jun	2	Display 1

P172	Use of Auditory Steady-State Response in infants less than 6 months in diagnosis confirmation of deafness after neonatal screening	Mehtari-Chabane Sari Nasrine Siham, Algeria	XXVIII	28-Jun	2	Display 1
P173	Dependence of Cochlear implants settings on the components of the evoked compound action potentials	Pashkov Aleksandr, Russia	XXVIII	28-Jun	2	Display 1
P174	Objective assessment of the floating mass transducer coupling quality via ASSR	Fröhlich Laura, Germany	XXVIII	28-Jun	2	Display 1
P175	Function of amplitude growth of electrically evoked compound action potential in patients with cochlear implants	Pudov Nikolai, Russia	XXVIII	28-Jun	2	Display 1
P176	Feasibility of promontory stimulation eABR recording in cochlear implant candidates with MED-EL clinical system: an update	Polterauer Daniel, Germany	XXVIII	28-Jun	2	Display 1
P177	Cortical auditory evoked potentials in children with cochlear implants	Lin Hung-Ching, Taiwan	XXVIII	28-Jun	2	Display 1
P178	Elongated EABR wave latencies observed in patients with auditory neuropathy caused by OTOF mutation	Hosoya Makoto, Japan	XXIX	29-Jun	6	Display 1
P179	Comparison of the auditory brainstem response vs the auditory steady-state response for the evaluation of adult deafness	An Yong-Hwi, South Korea	XXIX	29-Jun	6	Display 1
P180	Hemispheric asymmetry of auditory cortical activity elicited by temporal changes in adult cochlear implant users	Han Ji-Hye, South Korea	XXIX	29-Jun	6	Display 1
P181	Low stimulation artifact at eABR recording in cochlear implant users with unusual stimulator positions	Polterauer Daniel, Germany	XXIX	29-Jun	6	Display 1
P182	Changes of cortical auditory evoked potential in early activation cochlear implant recipients	Lin Chi Ching, Taiwan	XXIX	29-Jun	6	Display 1
P183	Auditory system reorganization following cochlear implant in children with pre-lingual deafness	Karimi Majid, Iran	XXIX	29-Jun	6	Display 1
P184	Event-related potentials before and after HD tDCS in tinnitus patients: preliminary results	Jacquemin Laure, Belgium	XXIX	29-Jun	6	Display 1
P185	Surgical factors affecting NRT threshold of slim straight electrodes	Ordonez Francisco, Germany	XXX	28-Jun	1	Display 4
P186	Correlation between ART and AUTOART thresholds at the intraoperative moment	Samuel Paola, Brazil	XXX	28-Jun	1	Display 4
P187	ECAP measurements in the new MAESTRO 7.0: comparison between AutoART and ART standard	Osterne Francisco, Brazil	XXX	28-Jun	1	Display 4
P188	Relationship among neural response imaging threshold and behavioral comfort levels	Fanelli Karina, Argentina	XXX	28-Jun	1	Display 4
P189	Measurements up to 6 months postsurgery in electrode impedances and most comfortable levels in pediatric patients	Pallares Norma, Argentina	XXX	28-Jun	1	Display 4
P190	In-line synchrotron-radiation phase-contrast imaging of the implanted cochlea	Ladak Hanif, Canada	XXX	28-Jun	1	Display 4
P191	Towards a novel task to assess listening effort: a pilot study in normal hearing	Di Nardi Cecilia, Ireland	XXXI	29-Jun	5	Display 4
P192	The role of preoperative computerized tomography in a safe posterior tympanotomy for cochlear implant surgery	Elzayat Saad, Egypt	XXXI	29-Jun	5	Display 4
P193	Computed tomography and magnetic resonance imaging evaluation in pediatric unilateral sensorineural hearing loss	Lee Byung Don, South Korea	XXXI	29-Jun	5	Display 4
P194	Development and validation of the Mandarin matrix sentence test in noise	Xi Xin, China	XXXI	29-Jun	5	Display 4
P195	The survey of defect for extracorporeal cochlear implant	Hojo Tatsuya, Japan	XXXII	29-Jun	8	Display 3
P196	The electrical stimulation of the ear in the USSR in early 1930's	Sargsyan Liana, United States	XXXII	29-Jun	8	Display 3

P197	Adults with cochlear implants – life quality and rehabilitation results after implantation	Klimczak-Gołąb Lucyna, Poland	XXXII	29-Jun	8	Display 3
P198	Cost-effectiveness of simultaneous cochlear implantation in South Korea	Jung Eun Kyung, South Korea	XXXII	29-Jun	8	Display 3
P199	Management of cochlear implant patients requiring mri scanning: developing protocols to insure safety and efficiency	Shew Matt, United States	XXXII	29-Jun	8	Display 3
P200	Problems of magnetic resonance imaging in patients with cochlea implants	Friauf Sara, Germany	XXXII	29-Jun	8	Display 3
P201	Sound localization of children and adult with normal hearing in quiet and noisy conditions	Cho Chang Hyun, South Korea	IV	29-Jun	8	Display 1
P202	Deafness etiology in patients submitted to cochlear implant	Iha Luiz Cesar Nakao, Brazil	III	28-Jun	4	Display 1
P203	Spatial advantage in bilateral cochlear implant recipients using a spatially-symmetric speech-on-speech masker paradigm	Morgan Catherine, Australia	II	29-Jun	5	Display 1
P204	Vibrant Soundbridge in congenital external and middle ear deformation in patient with Goltz – Gorlin syndrome	Porowski Marek, Poland	XX	28-Jun	1	Display 3

Advanced Bionics

Experience with Powerful Innovations

CI 2018, Koningin Elisabethzaal, Antwerp

We look forward to welcoming you on our booth and at our symposium.
Wednesday, June 27 – 16:15 - 17:05

WELCOME

Dr. Andrzej Zarowski

NKO Sint-Augustinus Antwerpen, Belgium

THE FOUNDATION OF BETTER HEARING

Mr. James Tysome

Cambridge University Hospitals, UK

Prof. Dr. Thomas Lenarz

Medizinische Hochschule Hannover, Germany

THE SIMPLE WAY TO HEAR MORE

Prof. Dr. Arneborg Ernst

Unfallkrankenhaus Berlin, Germany

Dr. Stefan Launer

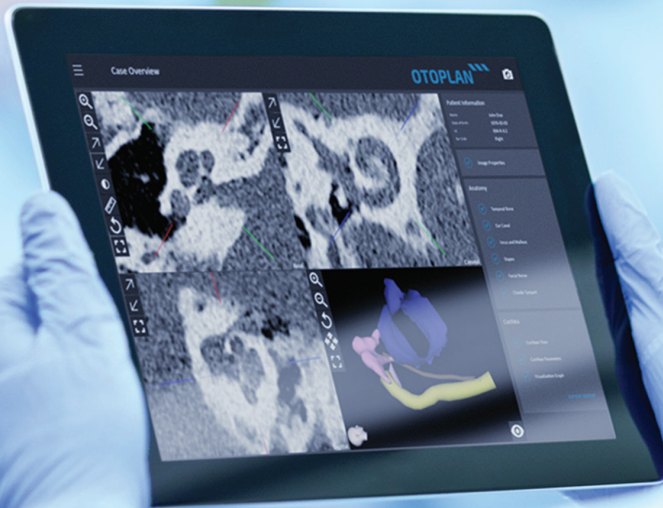

VP Science & Technology, Sonova

CLOSING REMARKS

Hansjürg Emch

President, Advanced Bionics
