

Conference Schedule

Friday 9 June 2018

Room	Queen Elisabeth	Marble	Okapi	Darwin	Gorilla 1	Gorilla 2	Gorilla 3	Gorilla 4	Gorilla 5	Pelican 1	Pelican 2	Peacock	Butterfly	Poster	Exhibition		
07:00	Breakfast																
07:30		TUT 02 How Much Cochlea Do We Have to Stimulate?	TUT 03 The Comprehensive Approach in paediatric ABI	TUT 04 Siebold Meeting	IC 03 How I do it: the Fundamentals of the AMEI Implants Bone Bridge and Vibrant Sound		TUT 05 CI Fitting with FOX Artificial Intelligence										
08:10	Transition Time																
08:20	KEY 20-22 Skarzynski Henryk													P o s t e r	V i e w i n g		
08:40	Usami Shin-ichi																
09:00	Briggs Robert																
09:20	Transition Time																
09:30	MS 23 Hearing Preservation CI in Postlingual Residual Hearing	MS 24 Surgical Challenges with Early and Late Complications in Cochlear Implants	MS 25 Impact of CI on Cognition in Older Adults	MS 26 Hearing Outcomes with Electric-Acoustic Stimulation	MS 27 Clinical Experiences with Precurved Modiolus Hugging Electrodes	FS 30 CI in Syndromic and Complex Severe Hearing Loss	FS 31 CI Outcome in Specific Congenital Inner Ear Anomalies	FS 32 Bone Conduction Implants in Unilateral Hearing Loss	FS 33 Focus on ABI Rehab Aspects	FS 34 Tonotopic Mismatch	FS 35 Language, Education and Parents	FS 36 Signal Processing and Sychacoustics	FS 37 Experiences with Bone Anchored Hearing Implants				
10:15																	
10:20																	
10:30	Transition Time																
10:40	Coffee Break																
11:00	KEY 23 Brown Kevin	KEY 24 Hempel Martin	KEY 25 Gifford Rene	KEY 26 Allen Lyndsey	KEY 27 Dabdoub Alain				KEY 28 O'Connell Brendan					P o s t e r	V i e w i n g		
11:20	Transition Time																
11:30	MS 29 Hearing ad Structure Preservation in Paediatric CI	MS 30 The Use of AMEI in External and Middle Ear Deformations	MS 31 The Benefits of Bimodal Hearing	MS 32 Re (habilitation for Children with Cochlear Implants. Now. Next or dare to say Never?	MS 33 Utilizing Regenerative Medicine to Optimize the Neural-Cochlear Implant Interface	FS 38 Application of Evoked Potential Measurements	MS 34 Lateral Wall Electrodes and Hearing and Structural Preservation	MS 35 Presentation and Discussion of Consensus Statements for Treatment of Patients with Conductive and Mixed hearing Loss with Implantable	FS 39 CI in Severe Inner Ear Malformation	FS 40 Experiences in CI and Single-Sided Deafness	FS 41 Patient Reported Outcome Measures	FS 42 Aspects of CI and Paediatric Rehabilitation	FS 43 Experiences with Non-Implantable Bone Conduction Devices				
12:15																	
12:20																	
12:30	Transition Time																
12:40	Lunch																
13:00	Transition Time																
13:30	KEY 29 - 31 Baumgartner Wolf-Dieter													P o s t e r	V i e w i n g		
13:50	O'Leary Stephen J.																
14:10	Della Santina Charley																
14:30	Transition Time																
14:40	MS 36 Restoring Vestibular Function: Preliminary Results and Challenges	MS 37 Intra-cochlear ECoHG in or during CI surgery	MS 38 CI in Children with Complex Needs	MS 39 Cochlear Implantation and Tinnitus	MS 40 Applications and Experiences with AMEI	FS 44 Hearing after CI in SSD	MS 41 Experiences with Early activation of the CI	FS 45 Surgical Challenges in Paediatric CI	FS 46 Experiences with Bimodal Hearing	FS 47 Speech and Language Development after Cochlear Implantation	FS 48 New Electrode Design	FS 49 Inner Ear Pathophysiology					
15:20																	
15:25																	
15:30																	
15:40	Transition Time																
15:50	Coffee Break																
16:15	KEY 32 Caversaccio Marco	KEY 33 Sharma Mridula	KEY 34 Kral Andrej	KEY 35 Agrawal Sumit	KEY 36 Frayse Bernard									P o s t e r	V i e w i n g		
16:35	Transition Time																
16:45	MS 42 State of the Art of Robotic-assisted CI Surgery	MS 43 Different Approaches to Rehabilitate Older Adults with a CI	MS 44 Brain Plasticity and Imaging in CI	MS 45 Measuring the Cochlear Duct Length	MS 46 Postlingual CI Auditory Outcome	FS 50 CI in Children - Complications - Adherence	FS 51 Intra-operative Measurements in CI	FS 52 Hearing Preservation in Children	FS 53 Fully-implantable Active Middle Ear Implant: Clinical Outcome	FS 54 Evaluation of Vestibular Function	FS 55 Complication Management in CI	FS 56 Topics in Implantable Bone Conduction Devices					
17:45																	
20:00	Conference Dinner
