CI2018

Conference Schedule

Saturday 30 June 2018

Room	Queen Elisabeth	Marble	Okapi	Darwin	Gorilla 1	Gorilla 2	Gorilla 3	Gorilla 4	Gorilla 5	Pelican 1	Pelican 2	Peacock	Poster	Exhibition
07:00	Breakfast													
07:30		TUT 06 Management of Conductive and Mixed Hearing Loss: A World of Options. An HEARRING discussion	TUT 07 The Swiss Robotic Experience	TUT 08 EFAS-Session: Audiologic CI-Assessment in Patients with Special Needs	TUT 09 The Beijing Cochlear Implant Surgical Experience in Congenital Inner ear Malformations		TUT 10 RBANS-H: Repeatable Battery for the Assessment of Neuropsychological Status for Hearing Impaired Persons	IC 04 How I do it: the Fundamentals of Structure and Hearing Preservation Cochlear Implant Surgery						
08:10	Transition Time													
08:20	KEY 37-39 Müller Joachim													
08:40	Landsberger David													
09:00	Aschendorff Antje													
09:20	Transition Time													
09:30	MS 47 Bilateral Cochlear Implantation	MS 48 Single Sided Deafness in Children	MS 49 Towards Totally Implantable Cochlear and Acoustic Implants	MS 50 Evaluating Vestibular Function before and after CI	MS 51 Neurosensorial Environment in the Cochlea	FS 57 Supportive Surgical Measures	FS 58 Intra-operative Measurements in CI	FS 59 Connectivity with Sound Processor and Listening devices	FS 60 Topics in Active Middle Ear and Bone Conduction Implants	FS 61 Different Outcome Measurements in CI	FS 62 Speech in Noise Algorithms	FS 63 The Use of Auditory Evoked Potentials in Fitting of Cochlear Implants		
10:15														
10:20														
10:30														
10:40	Coffee Break													
11:00	KEY 40 Lenarz Thomas													
11:20	CI and AMEI: State of the ART CI2018 – Van de Heyning Paul													
11:50	CI2020 - Orlando, FL, USA													
12:00	Transition Time													
12:10	MS 52 Aspects of New Experimental Electrodes	MS 53 MRI Evaluation after CI and ABI: Pitfalls and Future Perspectives	MS 54 Final Comments on Active Middle Ear Implants	MS 55 Towards a Consensus in Single Sided Deafness in Children?	MS 56 Preoperative and Postoperative CT and CBCT in Cochlear Implantation	FS 64 Bilateral and Bimodal Communication with Implants	FS 65 Experiences with Paediatric ABI	FS 66 Auditory/Electrically Evoked Potentials in CI	FS 67 Hearing Outcomes in Older Adults	FS 68 Complex Inner Ear Malformations and CI	FS 69 Future of CI and AMEI			
13:00														

Poster Viewing

EXHIBITION
