HONEYWELL FLUORINE PRODUCTS EUROPE

Honeywell Performance Materials and Technologies is a global leader in developing and manufacturing advanced materials and process technologies. Through its Solstice® brand of low-global-warming refrigerants, blowing agents, aerosol propellant and performance fluids, Honeywell is providing responsible replacements for hydrocarbons, HCFCs and HFCs. Solstice® Propellant (HFO-1234ze) and Solstice® Performance Fluid are Honeywell's offer to the aerosol industry.
