INDUSTRIE-GEMEINSCHAFT AEROSOLE e.V. (IGA)

Founded in 1958, IGA represents the common interests of companies being involved in the aerosol business in Germany.

Membership Benefits

- ✓ Advice on both legal and technical matters related to aerosols
- ✓ Early information about new European and national legislative initiatives relevant for the aerosol industry and new regulations to be followed
- ✓ A digital newsletter „Aerosolinformationen“ which is circulated frequently with up-to-date information
- ✓ Access to European and national Industry Guidelines and a newsletter archive in our Extranet
- ✓ A media crisis management, including a proactive screening of all publications on aerosols in German media
- ✓ As IGA is an associate member of the German Chemical Industry Association (VCI), IGA member companies also benefit from a VCI membership
- ✓ IGA shares offices with the German Cosmetic, Toiletry, Perfumery and Detergent Association (IKW), benefiting from a close cooperation with the German representation of the marketers of aerosols in the big product categories beauty and home care
- ✓ As a DIN member, IGA actively participates in the development of national and European standards which are relevant for the aerosol industry

Aerosolindustrie

Fachinformationen und Standards für die Aerosolindustrie, Produktionszahlen und Daten zur Marktentwicklung sowie Informationen zur IGA-Mitgliedschaft finden Sie hier.

[mehr erfahren...](#)

Verbraucher

Fragen rund um die Spraydose, wie deren Funktion, Einsatzgebiete und Geschichte, werden hier ebenso erläutert, wie der sichere Umgang und alle Umweltaspekte bis hin zum Recycling.
