### LIMARU NV

LIMARU NV aims to be the preferred partner on active ingredient supply for the formulation of insecticides, repellents, ... on the European biocides market.

Operating from our headquarters in Belgium, we are representing several active substance manufacturers in an exclusive way. Due to our unique position, we offer a diversified portfolio of technical materials, formulated premixes and access to existing frame formulations. Already for more than 25 years, we support our customers with expertise and technical advice regarding aerosol and other product-type formulations, always in close cooperation with our partners. Moreover, LIMARU - having dealt with active ingredient & product registrations for EU and export markets - are in the position to offer customer-tailored regulatory support.
