MEPLAST

Meplast was founded in 1991. Company started its production with plastic injection and keep manufacturing in its own modern factory in Istanbul Dudullu Organised Industrial Zone. Meplast has been making its investments continuously since it was established and enlarged its product range with the production of Aerosol Valves in 2016. Meplast manufactures "Aerosol Valve", "Aerosol Actuators & Caps" and "Applicators" under the name of VIOCAP. Company also makes unique, well-designed custom projects for its customers. Meplast continues to target tomorrow's excellence by strengthening synergy generated by the unity of its customers, suppliers, dynamic personnel and its innovative management approach.
