SOLMATIC

We are manufacturer of aerosol filling machinery for different industries such as pharma, perfumery, body care, paints, household, car care, technical sprays. We produce both semi automatic equipment and fully automatic complex production lines with filling capacity of up to 120 cans per minute. During 20 years of our activity on the market we have supplied machines to over 30 countries around the world. We offer integrated manufacturing solutions for aerosol producers, assembly and packaging facilities as well as complete hygiene solutions and cleaning in place stations for pharma, beverage and food processing industries.
