THYSSENKRUPP RASSELSTEIN GMBH

rasselstein® - for those who can!

At the world's largest production facility for packaging steel, thyssenkrupp produces tinned and special chromium coated steel for a variety of packaging solutions. We deliver the complete product range for aerosol can bodies, tops, bottoms and valve discs. Our coated packaging material – specifically for aerosols – offers the benefits of steel combined with organic coatings.

Packaging steel

- Tinplate, electrolytic chromium coated steel/tin free steel (ECCS/TFS), blackplate
- Coils, sheets, scroll-sheets, narrow strip
- Lacquered, PP-coated, PET-coated
