## Dear Friend,

It is my pleasure as the President of FEA and a board member of the German Aerosol Association (IGA) to invite you to Düsseldorf in 2018.

The FEA Board of Directors decided several years ago that the FEA would take responsibility and leadership in organizing the Aerosol Congress and Exhibition in Europe.

Our vision is to turn the event into a global meeting point for experts and business partners.

Nowadays, the pace of innovation and technical progress is such that it has become necessary to host the event biennially as opposed to every three years.

To make the event still more attractive, we are extending beyond the technical expert presentations and scheduling inspiring talks, that have little in common apart from their global reach.

Every event will be located in a different, conveniently accessible European city to promote the aerosol industry and form long-term connections.

As Germany is the second biggest aerosol producing country in Europe and because Düsseldorf is an IGA representative, I am convinced that this city is extremely well equipped to promote the aerosol business within and outside of the country.

Let's prepare the bright future of the aerosol industry together with the open and innovative spirit that characterises our industry and that drives sustainability and business success forward.

I look forward to welcoming you to Düsseldorf in 2018.

Rolf Bayersdörfer  
FEA President
